

## Call for papers!

We are looking for submissions of original research and reviews for our Special Collection '**Immunotherapies for inborn errors of immunity**'

This collection is led by Prof Menno van Zelm, Prof Rita Carsetti and Prof Hirokazu Kanegane, and will explore the identification immune pathways and novel therapeutics which may provide targeted treatment options for genetic immune defects.

### Why submit?

- Fast turnaround time
- High-quality and thorough peer review
- Professionally created graphical abstract service
- Dedicated promotion through Society channels and networks
- All articles indexed and fully accessible through PubMed Central, Scopus and Google Scholar
