

## WAS2024, Milan, Italy– Invitation

Dear Researcher/Clinician

Following the great success of WAS2022 in Munich, we are happy to announce that the **Fourth International Symposium on Wiskott Aldrich Syndrome** will take place **November 18<sup>th</sup>, 2024** in **Milan, Italy**. This special event will enable researchers and clinicians to meet, present and discuss their work on Wiskott Aldrich Syndrome and WASp research. For more details, please visit [www.was2024.org](http://www.was2024.org) . Our event is endorsed by ESID.

We are planning a series of sessions, keynote presentations and panel discussions. Our objectives for the symposium are simple, yet bold. We hope to attract researchers and clinicians from around the world to:

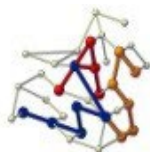

- Expand WAS research.
- Bridge the gap between basic and clinical research to speed up applications.
- Foster collaboration among researchers.
- Motivate young researchers to focus on WAS and XLT

We invite you to participate and join us at the symposium to hear the most updated information on WAS and XLT, and have the opportunity to connect with fellow WAS clinicians and researchers and patient advocates.

Abstract submission and registration will be open on June 1<sup>st</sup>, 2024. For additional information or any clarification needed, please send us E-mail at: [office@was.org.il](mailto:office@was.org.il)

Looking forward to hearing from you and seeing you at the symposium.

WAS2024 Organizing Committee.
